

Compressed air treatment & industrial cooling

Dryers, filters, condensate management, chillers and aluminium piping — the complete clean-air line after your compressor.

ABOUT OMI

OMI is an Italian manufacturer specialised in compressed air treatment and industrial cooling. The range covers everything between the compressor and the machine: refrigeration and adsorption dryers, filtration, condensate drains and separators, process chillers and a modular aluminium piping system. Equipment is designed in Italy for continuous industrial duty and sized for anything from a single workshop compressor to a full plant air network.

FOCUS
Clean, dry air & cooling

IN THIS OVERVIEW

01	Compressed air dryers	11 families
02	Filters	5 families
03	Aftercoolers, separators & drains	10 families
04	Chillers & liquid cooling	6 families
05	Aluminium piping system	27 families

WHY ORDER THROUGH INO

- Local partner in Riga.**
 Warehouse and office at Klijānu iela 8 — pick-up, delivery across Latvia, Lithuania and Estonia.
- Technical selection.**
 Send us a code, photo or nameplate — we find the right part or a compatible equivalent.
- Several brands, one invoice.**
 OMI together with Camozzi, SMC, Pizzato, Datasensing and more in a single order.
- Assembly on request.**
 Pre-assembled modules, valve panels and on-site installation.

01 Compressed air dryers

Refrigeration dryers for general plant air, energy-saving and sub-freezing versions, high-temperature and high-pressure models, and heatless or blower-purge adsorption dryers for dew points down to the levels required by food, pharma and painting.

DD Series refrigeration air dryers

New range of refrigeration dryers with renewed design and innovative features.

ED Easy Dryers Premium refrigeration air dryers

OMI Easy Dryers Premium refrigeration air dryers.

ESD Series energy saving dryers

New generation of energy saving dryers born to reduce energy consumption.

HTD Series high temperature air dryers

High-temperature inlet air dryer (up to 82°C).

HPD Series Easy Dry high pressure dryers

Special line of high pressure dryers for working pressures up to 45 bar.

SFD sub-freezing refrigeration air dryers

Revolutionary subfreezing compressed air dryer technology.

KMD Series adsorption dryers

New series of heatless adsorption dryers with compact design.

HL Series adsorption dryers

Heatless adsorption dryers for various industrial applications.

HLA Series adsorption dryers

Heatless adsorption dryers for chemical, pharma and food applications.

Also in the range: HLA PRO Series adsorption dryers · HBA Series adsorption dryers

02 Filters

Coalescing, particulate and activated-carbon filtration in die-cast aluminium and heavy-duty housings — from compressor outlet to point of use, with matching elements and accessories.

F Series compressed air filters

Reliable compressed air filtration for every application.

AF 30-2700 Alps Series filters

Die-cast aluminium filters with low pressure drop.

Heavy Duty filters — high pressure / high temperature

Heavy-duty filters for high pressure and high temperature applications.

NEW

Sterile compressed air filters

Sterile compressed air filters for food, beverage and pharma.

Filter accessories

Connections, gauges and accessories for OMI filters.

03 Aftercoolers, separators & drains

Air- and water-cooled aftercoolers, water separators, zero-loss and timed condensate drains, and oil-water separators so condensate can be discharged legally.

RA Series 10–750 aftercoolers

Electrical or pneumatical driven aftercoolers to lower compressed air temperature.

A-AV Series 30–2100 aftercoolers

Air/water aftercoolers A/AV 30 – A/AV 2100.

SA-AF Series condensate separators

Die-cast aluminium condensate separators.

SA-SRA Series condensate separators

Condensate separators with new die-casting technology.

SC timed condensate drains

SC timed compressed air condensate drains.

SC-M condensate drains

Reliable SC-M compressed air condensate drains.

Zero loss condensate drains

Zero-loss compressed air condensate drain.

SC-MFD magnetic drains

Magnetically operated zero air loss drains.

ESV Air Saver

Prevents compressed air loss during condensate discharge.

Also in the range: Ecoplus water oil separator

04 Chillers & liquid cooling

Process chillers and liquid coolers for machine tools, plastics, lasers and hydraulic systems — air- and water-cooled, compact to industrial capacities.

CHW Series water chillers

Mono-block water chillers for internal and external use.

CHG 08-100 low temperature water chillers

Low temperature liquid water chillers.

CHWL liquid chillers for laser cutting

Chillers designed for laser cutting applications.

CHO Series oil chillers

Oil chillers line dedicated to machine tools sector.

CHR Series air to water coolers

Air/water liquid coolers equipped with pump and tank.

CHA Series water to water coolers

Ideal for systems with an intermediate cooling stage.

05 Aluminium piping system

Quick-assembly aluminium compressed-air piping: tubes, fittings, drops, valves, brackets and installation tools.
 Clean air, low pressure drop, no welding.

Aluminium tubes

Aluminium piping for compressed air networks.

Elbows

Elbows for directional changes in piping systems.

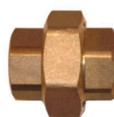

Tee fittings

Tee fittings for junctions in piping systems.

Sockets

Sockets and bushings for reliable connections.

Brass union sockets

Brass union sockets for durable connections.

Reducing fittings

Reducing fittings for connecting different diameters.

Valves

Valves for precise flow control in piping systems.

Butterfly valves

Butterfly valves for flow regulation.

Pipe-flange adaptors

Pipe flange adaptors for connecting piping to equipment.

Also in the range: Caps · Plugs · Drops · Appliques · Hosepipes · Wall bearing elbows · Clamps · Brackets · Pipe stands · Spacers · Threaded spacers / rods · Anti whip-lash straps · Pipe cutters · Pipe milling cutters · Chamfering cones · Deburring tools · Wrenches · Vaseline grease

Need a price, a datasheet or the full catalogue?

This overview shows the main OMI product families. For exact codes, technical data, CAD files and prices, contact our sales team — we reply with an offer, availability and delivery time.

1

Send the code or description

Part number, photo of the nameplate or a short description of the application.

2

Get an offer

Price, availability and delivery time — plus an equivalent if it is faster or cheaper.

3

Delivery or pick-up

From our Riga warehouse or directly from the manufacturer.
