

INO
PNEUMATIC CYLINDERS

Pneumatic cylinders

ISO 6432, ISO 15552 and ISO 21287 cylinders, compact, guided, rodless and stainless steel versions — made in Italy, supplied by INO.

INO

PNEUMATIC CYLINDERS

ABOUT THE RANGE

The INO cylinder range covers all common ISO standards plus compact, guided, short-stroke, rodless, CNOMO and stainless steel cylinders, with mountings, guide units and sensors. The cylinders are produced in Italy by a specialised cylinder manufacturer certified to ISO 9001, ISO 14001 and ISO 45001; ATEX versions are available. Same mounting dimensions as the cylinders of other major brands — replace a worn cylinder without changing the machine, at a better price.

WHY ORDER THROUGH INO

- Local partner in Riga.**
 Warehouse and office at Klijānu iela 8 — pick-up, delivery across Latvia, Lithuania and Estonia.
- Technical selection.**
 Send us a code, photo or nameplate — we find the right part or a compatible equivalent.
- Own INO range.**
 A better price than the big brands, project prices for regular supply and the most common sizes in stock in Riga.
- Assembly on request.**
 Pre-assembled modules, valve panels and on-site installation.

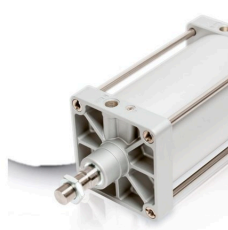

01 ISO standard & round cylinders

Interchangeable with SMC, Festo, Camozzi and other brands of the same ISO standard — same mounting dimensions, same accessories.

Series H — ISO 15552

Profile-tube cylinders Ø32–125 with sensor slots, through-rod, non-rotating and tandem versions.

Series U — ISO 15552

Tie-rod cylinders for heavy-duty applications.

Series P — ISO 21287

Compact cylinders Ø20–125 with very short overall length.

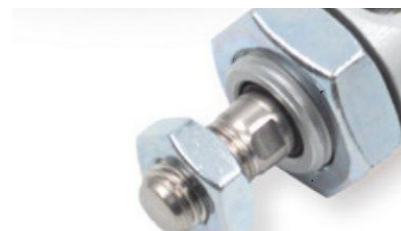

Series O — ISO 6432

Micro cylinders with round tube, Ø8–25, double and single acting.

Series O BIG

Round cylinders in larger bores for compact machines.

Series O SHORT

Shortened micro cylinders where space is tight.

Series I

Round cylinders — economical choice for general duty.

02 Compact & special cylinders

Solutions for tight spaces, high side loads, long strokes and conveyor stops.

Series A — UNITOP

Compact cylinders to the Italian UNITOP standard.

Series E

Guided compact cylinders with high side-load capacity.

Series L

Oval-piston compact cylinders — built-in anti-rotation.

Series K

Compact cylinders in large bores.

Series ST

Stopper cylinders for conveyors and transfer lines.

Series T

Cartridge (screw-in) cylinders for fixtures.

Series R

Short-stroke cylinders for clamping and ejecting.

Series F

Short-stroke cylinders with flat body.

Series CN — CNOMO

Cylinders to the French CNOMO standard.

Also in the range: Series D

03 Stainless steel cylinders

AISI 304/316 cylinders for food & beverage, dairy, chemical and wash-down areas — FDA-compliant seals available.

Series Z — ISO 6432 inox

Stainless steel micro cylinders, crimped round tube.

Series J — AISI 304

Stainless steel round cylinders, crimped tube.

Series V — AISI 316

Stainless steel round cylinders with screwed tube — fully serviceable.

Series Y — ISO 15552 inox

Stainless steel ISO 15552 cylinders with tie rods.

Series X — ISO 21287 inox

Compact stainless steel cylinders.

04 Reservoirs & accessories

Everything needed to complete the installation. Pneumatic grippers (Series M) are also available.

Series S

Compressed air reservoirs.

Series W

Guide units, mountings, rod ends, sensors and fittings.

Need a price, a datasheet or the full catalogue?

This overview shows the main INO Pneumatic cylinders product groups. For exact codes, technical data, CAD files and prices, contact our sales team — we reply with an offer, availability and delivery time.

1

Send the code or description

Part number, photo of the nameplate or a short description of the application.

2

Get an offer

Price, availability and delivery time — plus an equivalent if it is faster or cheaper.

3

Delivery or pick-up

From our Riga warehouse or directly from the manufacturer.
