

Pneumatic components — original SMC

Cylinders, valves, FRL, fittings, vacuum and sensors from the world's largest pneumatics manufacturer.

ABOUT SMC

SMC Corporation (Japan) is the world's largest manufacturer of pneumatic automation components and the brand most often found on machines in the Baltics. INO Automation supplies original SMC components — cylinders, valves, air preparation, fittings, vacuum and sensors — for maintenance and spare parts, and can offer Camozzi equivalents where shorter lead time or a lower price matters.
